Task Force – Executive Communication Team (Decision Clarity Unity)

The task force that I was working under is the Decision Clarity Unit. The CEO must let customers know about the data breach and Information Regulator.

Information Needed to Make the Decision

- How serious is the data breach – Around 2.3 million customer's records were accessed.
- When was the data breach discovered(Time) – The breach was detected by automated system in the morning around 02:47
- Consequences to the organization – The breach may lead to loss of customer trust and financial losses
- Required Approval – The CEO needs to approve telling customers about the breach. Also the CEO needs to make public statement to the media.
